 GRASSLAND RETAINED

Reinstatement Plan

- NOTES**
- Existing features to be reinstated are based on the current marked pipeline alignment.
 - Reinstatement proposals are shown indicatively only and will be refined in conjunction with the detailed design of pipeline alignment, for inclusion with the final Landscape and Ecology Management Plan.
 - Trees that are removed as a result of the construction of the project will be replaced on a one for one basis in accordance with the vegetation reinstatement plans approved under the LEUP. Where possible, replacement tree planting will be located in close proximity to the original tree. (Commitment Q200)
