Hampshire County Council have responded to the additional information provided by the agent. In summary;

The Highways Authority are satisfied that there are no works to the highway around the site entrance. Therefore, condition 5 is no longer necessary and can be removed.

With regard to Accident data, additional information has been provided. The Highway Authority have concluded that there does not appear to be a pattern to these accidents that would indicate underlying trends which would be exacerbated by the development.

Hampshire highways have lodged a holding objection pending resolution of issues with the travel plan.

Hampshire County Council have clarified their position and both require a Travel Plan and require it to be secured by S106. This includes securing a Travel Plan Bond.

As a result, the recommendation has been altered as follows;
