### Planning (Development Management) Summary Report for the Quarter January - March 2025 and Annual Summary Report for 2024-25

#### 1. Introduction

1.1 The purpose of this report is to update Members on the position with respect to Performance Indicators for the Development Management Section of Planning, and the overall workload of the Section. This report covers the quarter from 1st January to 31<sup>st</sup> March 2025; and is also an annual summary for the previous year from 1<sup>st</sup> April 2024 to 31st March 2025.

#### 2. **Planning Applications**

- 2.1 The three tables and corresponding graphs below set out figures relating to determination of Major, Minor and Other planning applications and appeal decisions for the first guarter of the financial year.
- 2.2 We are required to provide the government with statistical returns in relation to decision times for different types of applications and the number of appeals allowed. National Government sets these targets at a national level, and there are potential consequences for not meeting such requirements. Officers can agree Extension of Times (EXOT) with agents to extend the timescale beyond the nationally set target deadlines, and these are recorded as 'in time' in the statutory returns.

### Major applications

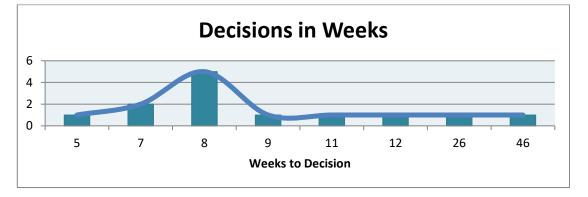

2.3 In Quarter 4 two major planning applications were determined 'in time'. One was determined within the statutory 13-week deadline and one was determined in accordance with an agreed Extension of Time.

2.6 It should be noted that the returns required by government do not include some application types including applications for the approval of details pursuant to conditions, applications to fell or carry out works to TPO trees and trees in Conservation Areas, Non-Material Amendments, Screening Opinions, Adjacent Authority Consultations and applications for approval in relation to conditions. These however constitute a significant source of demand on our service. These are included in the total figures reflecting workload set out below.

# 3. Appeals allowed

3.1 The following table sets out figures relating to appeals allowed against the authority's decision to refuse permission. Given that no appeals have been allowed in this financial year the Council has had a 100% success rate.

| Quarter | Government Target | Appeals Allowed | % allowed | Appeal Decisions |
|---------|-------------------|-----------------|-----------|------------------|
| 1       |                   | 0               | 0%        | 3                |

4.2 This quarter numbers of applications submitted have picked up a bit, but the fee income has been down which reflects a larger number of small-scale proposals and enquiries in that quarter.
