CABINET

#### COUNCILLOR KEN MUSCHAMP, DEPUTY LEADER AND BUSINESS, SAFETY AND REGULATION PORTFOLIO HOLDER REPORT NO. EHH1814

29 MAY 2018

#### **KEY DECISION: YES**

#### PROPOSED VARIATION TO THE SCHEME OF HACKNEY CARRIAGE FARES

#### SUMMARY AND RECOMMENDATIONS

This report sets out taxi trade proposals to vary the scheme of hackney carriage fares (last modified 01.08.17) through an uplift to the taximeter pull-off charges and other structural changes to the extant scheme.

Cabinet is requested to consider the proposals and, where appropriate, approve any changes for public consultation; with a view to their implementation from 1<sup>st</sup> September.

#### 1.0 INTRODUCTION

- 1.1 Following a request from the taxi trade (see **appendix A**), this report puts forward proposed variations to the extant scheme of hackney carriage fares. For reference, the current scheme was last uplifted on 1<sup>st</sup> August 2017 and is given at **appendix B**. The trade proposals result in the fare scheme given at **appendix C**.
- 1.2 Under the Local Authorities (Functions & Responsibilities) (England) Regulations, the determination of hackney carriage fares is an executive function. Accordingly, while not obliged to approve a revised scheme of fares, Cabinet is asked to consider and, where appropriate, approve the proposals for public consultation.
- 1.3 Where, following public consultation, there are any objections to the proposals, they must be brought back to Cabinet for consideration. Otherwise, the proposed scheme takes effect on expiry of any date specified in the consultation notice. For this reason and the fact that any variation to the scheme of fares will likely have a Borough wide effect, any determination, even at this stage, should be considered a key decision.

#### 2.0 BACKGROUND

2.1. Section 65 of the Local Government (Miscellaneous Provisions) Act 1976 (LGMPA76) gives the Council the power - not a duty (i.e. a discretionary ability), to fix the rates or fares in connection with the hire of a hackney carriage vehicle within its district by means of a scheme of fares. Historically, the Council has always established and set a scheme of fares and this has largely been subject to review in accordance with its taxi licensing policy.

2.2. The determination of taxi fares was transferred to Cabinet at its meeting of 3<sup>rd</sup> September 2013 (see Head of Democratic Services' Report No. DEM1303). At this time, Cabinet effectively approved the democratic procedure and methodology as follows.

#### 2.3. Approved procedure

- 2.4. Normal procedure involves the calculation of an initial percentage uplift figure (known as the 'notional uplift') using a formula based on various indices and measures of inflation, weighted to reflect factors relevant to the trade (e.g. the cost of fuel). For year on year comparison purposes, the January indices are used as a standard benchmark. This formula was first used in the 2002 settlement and was developed in consultation with the Taxi Trade Board.
- 2.5. A revised fare scheme is normally prepared using the notional uplift as a guide, and subject to public consultation. Given its role and responsibilities in other areas of taxi licensing work, the views of the Licensing & General Purposes Committee are also sought during the consultation period. The approved timetable aims to give effect to any variation to the scheme of fares in October or November each year (subject to Committee cycles etc).

#### 3.0 DETAILS OF THE PROPOSAL

#### 3.1. Proposed variation(s)

- 3.2. Despite the above arrangements, the taxi trade have submitted proposals to vary the current scheme of fares (see **appendix A**) by means of a direct uplift to the pull-off charge(s) (i.e. the amount on the meter as the journey commences) for each metered rate.
- 3.3. In addition, the trade propose some simplification of the scheme by consolidating night time and Bank holiday rates; thereby reducing the number of meter rates from five to four. They also propose to present charges at time, time and a half, and double time across meter rates 1, 3 and 4 and seek to apply a £1 flat fee for each of the current extra charges.
- 3.4. Finally, given their proposals and changes to the law prohibiting credit and/or debit card charges, the trade also suggest that there should be a general policy that all hackney carriages must accept credit or debit card payments.

#### 4.0 IMPLICATIONS OF PROPOSALS

#### 4.1. Proposed fare changes

4.2. The taxi fare implications inherent to the proposals can mainly be seen by comparing them against the current scheme of fares and the notional uplift. This is outlined with additional commentary below.

#### **Notional Uplift**

- 4.3. Use of the approved formula results in a notional uplift of 3.47% for the benchmark period January 2017 to January 2018 (see **appendix D**). However, at the time of the last fare scheme review (1<sup>st</sup> August 2017) a notional increase of 7.26% had accrued over a 3-4 year period in which, at the request of Members, its deregulation, efficacy and simplification was explored and considered.
- 4.4. Despite working collaboratively with the taxi trade, agreement on a simplified fare structure could not be reached with the taxi trade at this time. However, so as to reduce the impact of what was considered a sizeable fare increase (i.e. at 7.26%), an interim increase of 4% was applied at this time. This effectively deferred (i.e. 'banked') the remaining uplift amount (3.26%) to, and pending the next fare review and/or reworking of the scheme.
- 4.5. Accordingly, when supplemented with the 'banked' proportion of the 2017 settlement (i.e. 3.26%), the notional uplift methodology would suggest an overall adjustment of **6.73%** (i.e. 3.47% + 3.26% = 6.73%) is applicable at this time.

#### Comparison of benchmark taxi journeys

4.6. The tables given at **appendix E** provide for a fare cost comparison of journeys at each mile mark (up to 15 miles) for both the current and proposed schemes. The table given at **appendix F** similarly provides for a cost comparison of a number of local journey examples at different times of the day.

#### Commentary of fare proposals

- 4.7. Whilst subject to variation on account of running mile and taximeter tick over points, the aforementioned tables generally show that the trade proposals provide for a significant increase above the notional uplift for journeys up to and between the one and two mile mark (ranging between 7.46% and 12.5% across meter rates 1, 2 and 3). Thereafter, journey fare increases are notably lower than the notional uplift.
- 4.8. As the trade proposals are, in part, front-end loaded with changes to the pull off rates (i.e. the amount on the meter as the journey commences) this is of little surprise. However, whilst this approach applies an increase equally to all taxi users, it is clear from this that the proposed increases will, on a day to day basis, be most noticeable by the short journey user.
- 4.9. The proposals also seek to consolidate the scheme by removal of existing meter rate 4 (for Bank holidays) in favour of applying meter rate 3 (existing night time rate) on Bank holidays. As existing meter rate 3 provides for higher pull off and running mile rates, the proposals will also result in an above notional increase in fares on Bank holidays (between 21% and 34%).

#### 4.10. Proposed policy changes

- 4.11. The provision of mobile credit / debit card payment facilities has been technologically feasible for some time and associated services are now widely available in an already established market. Whilst they come with varying set up and revenue costs, the provision of such facilities and services is already commonplace. Indeed, whilst taxi work has historically been a cash business, society in general is increasingly becoming more digital and digital transactions are increasingly becoming the norm.
- 4.12. However, while such a policy proposal would be relatively easy for the main taxi companies to accommodate (with many of their drivers providing such facilities and services already), it would likely be less so for the independent taxi operators. Some of these, may see the mandatory provision of credit / debit card payment facilities as an unnecessary and/or unviable cost or burden to their business.
- 4.13. The Council's current taxi licensing policy (approved October 2012) is largely silent on the provision for credit / debit card payment facilities; leaving this to the discretion of the taxi operator. The Council's current taxi licensing policy states -

#### Permitted Vehicle Modifications – pp 6.63, page 53

The licensing authority recognises that some modifications to vehicles can enhance performance, efficiency and the service offered to customers, as well as provide for enhanced safety and/or revenues for vehicle proprietors and/or drivers. Accordingly, subject to all other requirements being met, the licensing authority will normally permit the following (or similar) modifications to vehicles.

[...](g) Removal or installation of credit/debit card payment systems;[...]

- 4.14. As the mandatory provision of credit / debit card payment facilities would represent a change to our current taxi licensing policy, this matter would need to be subject to public consultation. Furthermore, as not all licensed taxi operators presently provide such facilities, it would also be reasonable to provide a 6-12 month lead in time following the adoption of any such policy to allow all relevant taxi operators to plan for and give effect to any such requirements.
- 4.15. The Council's taxi licensing policy is currently under review and these matters may be incorporated therein if considered appropriate.

#### 5.0 OTHER RELEVANT CONSIDERATIONS

#### 5.1. Legal Implications

5.2. Whist the Council is not obliged to set a revised scheme of fares, the Council's current taxi licensing policy (see **appendix G**) specifies that the Council will seek to undertake an annual review of taxi fares. It further aims to give effect to any variation to the scheme of fares by October or November each year (subject to Committee cycles etc).

5.3. Notably, the Council may be subject to challenge where any legitimate expectation(s) arising from its stated policy intentions are not met.

#### 5.4. Consultation requirements

- 5.5. By virtue of Section 65(2) LGMPA76 any revision to the scheme of fares must be published in a local newspaper and in a notice at the Council offices by way of public consultation on the proposals. Representations regarding proposed changes may then be made within a stated period of not less than 14 days.
- 5.6. In accordance with the approved procedure, the views of the Licensing & General Purposes Committee are also sought during any consultation period and fed back to Cabinet as may be appropriate. Allowing for Committee cycles, this will be scheduled for its meeting as of 30<sup>th</sup> July.
- 5.7. Sections 65(3) and 65(4) LGMP76 provide that where, following consultation, there are any objections to the proposals, these must be brought back to Cabinet for consideration. Otherwise, the proposed scheme takes effect on expiry of the date specified in the consultation notice. Allowing for newspaper publication dates and subsequent Cabinet / Committee cycles, any report back to Cabinet will be scheduled to its meeting of 21<sup>st</sup> August.

#### 5.8. Practical implementation requirements

5.9. Further to the above, any change to the scheme of fares results in the need to recalibrate the taximeters in all taxis licensed by the Council. A modern taximeter needs technical / specialist recalibration and, given the number involved, requires some co-ordination to take effect at the same time. For this reason, together with the aforementioned consultation requirements, it is proposed that any revised scheme of fares take effect from 1<sup>st</sup> September.

#### 5.10. Financial and Resource Implications

5.11. There are no direct financial implications associated with this report other than those attributable to the costs of public consultation. However, these are factored into and can be borne by existing budgets.

#### 5.12. Equalities Impact Implications

5.13. Once established, a scheme of fares must be applied to journeys undertaken within the Borough. The scheme may also be, and is often applied voluntarily for journeys going outside the borough. However, fares for out of borough journeys may be negotiated with the fare paying customer in advance. A scheme of fares as regulated by taximeter therefore provides for a consistent method of calculating a fare for any journey between point A to B. It is considered that this does not discriminate between those with protected characteristics.

- 5.14. However, while subject to minor ancillary income streams (e.g. vehicle advertisements), taxi fares are the main means by which drivers can recoup the costs of providing a taxi service and effecting an income / living. Conversely, fares must be reasonable and affordable for those that use and/or rely on such services. In essence then, there is a balance to be struck with reference to what is reasonable to expect people to pay but also to the need to give taxi drivers sufficient incentive to provide a service; particularly when it is needed (including at times involving anti-social hours). These and other relevant equality considerations are outlined at **appendix H**.
- 5.15. For this reason, a range of socio-economic data and similar indicators are also provided at **appendix I**. This is provided so as to help contextualise both the current and proposed levels of taxi fares against local circumstances, local issues of relative depravation / affluence and the ability to pay for and use taxi services.

#### 5.16. Useful Guidance

- 5.17. While there is limited guidance available to local authorities in setting taxi fares, an excerpt of the Department for Transport (DfT) best practice guidelines to licensing authorities is given at **appendix J**.
- 5.18. While the DfT best practice guidelines have no legal standing, the following points may be relevant; namely -
  - (a) It is good practice to review fare scales at regular intervals.
  - (b) Fare scales should be designed with a view to practicality.
  - (c) Authorities may wish to consider adopting a simple formula for deciding on fare revisions as this will increase understanding and improve the transparency of the process.
  - (d) In reviewing taxi fares authorities should pay particular regard to the needs of the travelling public, with reference both to what it is reasonable to expect people to pay but also to the need to give taxi drivers sufficient incentive to provide a service when it is needed.
  - (e) There may be a case for higher fares at times of higher demand.
  - (f) Taxi fares are a maximum, and in principle are open to downward negotiation between passenger and driver.

#### 6.0 CONCLUSIONS

6.1. The Council's taxi licensing policy specifies that the Council will undertake an annual review of taxi fares. Whilst subject to an approved methodology, the taxi trade have submitted their own proposals for consideration. 6.2. Any proposal for variation must be subject to public consultation and, by virtue of approved processes include Member consideration by virtue of the Licensing & General Purposes Committee. Where appropriate, all representations / comments will be brought back to Cabinet for consideration before determination. However, by law, any advertised proposal will automatically take effect in the event that it does not attract any representations / comments. It is therefore proposed that any revised scheme take effect from 1<sup>st</sup> September 2018.

#### TAXI TRADE CORRESPONDENCE & PROPOSALS FOR VARIATION OF CURRENT SCHEME OF FARES

The Trade Board met in December of 2017 to discuss any current issues. One of the discussion points was a Fare Review; this was primarily instigated by the Government decision to stop businesses being able to charge an admin fee on credit card transactions. Historically Taxi Drivers have charged a fare and added the processing costs to a trip where customers wanted to pay by card. This is no longer possible so the Trade now needs these costs built into the fare.

We also looked back at the requests made previously by the Council regarding a simplified scheme of fares and want to work towards those aims.

When the Transport for London (TFL) removed card charges from the Hackney Carriage Trade in London they raised the fares by 20p to cover the extra costs incurred by the trade. What was not calculated into the above costs was the large proportion of customers that would subsequently change from paying with cash to using card payment. The London cab drivers we know claim that card payment has moved from 30% of their fares to 70% of their fares.

Fundamentally the Trade would like to see a 30p increase on the base rate to cover the additional costs that will be incurred from 12<sup>th</sup> January 2018 and the increase in uptake of card usage that will follow. We would not be requesting any % increase due to inflation and increases of other cost.

The Borough of Rushmoor has one of the best Hackney Carriage fleets in the area. Those standards mean we also operate with vehicles that cost more to purchase and service than the surrounding boroughs yet we also have the lowest Fares of all the surrounding boroughs.

For a two mile trip (the taxi fare for each of the surrounding districts) is as follows: Hart =  $\pounds 6.80$ Surrey Heath =  $\pounds 6.40$ Guildford =  $\pounds 6.40$ Waverley =  $\pounds 6.20$ Rushmoor =  $\pounds 5.90$ 

Our proposal brings us to Waverley rates but still behind the others, plus we would now be carrying the additional costs from taking payment by Credit Card.

Every driver will be affected differently but on average we expect the initial costs to each driver to be in the region of £240 per year. Drivers who take a lot of card payments (for example those that work in Farnborough) could, on current costs, be looking at £414 per year.

These figures will, we feel, only increase, as they have in London, due to the public changing from cash payment to card payment.

We respectfully ask for an increase in the Flag Fall / Pull Off to help cover these costs. We will be out of pocket from 13<sup>th</sup> January 2018 and accept that the Fare Review is unlikely to be processed until later in 2018 so the increase would also help to recompense drivers in arrears, in addition to continuing to cover costs going forward.

Additional we recognise the council wanted to see a simplified fare chart and would like to work towards that with some minor corrections and simplifications to the fare chart.

The following suggestions; remove a meter rate, reduce the number of extras and corrects some anomalies in the fare chart.

- No percentage increase on the running mile.
- A 30p rise on Meter Rate 1 pull off and a correction to the time and a half and double time pull off rate.
- We ask that Easter Sunday be included in the 'Bank Holiday' section. Easter Sunday is a special day, even the supermarkets recognise that people should not be expected to work on Easter Sunday. Customers are genuinely shocked that we do not, at present, charge a premium on fares on Easter Sunday.
- On Boxing Day the enhanced rate currently ends at 23:59. This is an anomaly and we think it is more than reasonable for the enhanced rate to continue to 06:59 on the 27<sup>th</sup> of December (like the New Year's Eve rate running until 06:59 on the 1<sup>st</sup> of Jan.

Changes by meter rate.

#### METER RATE 1

Flag Fall / Pull Off - Increase from £2.70 to £3.00

This is to cover the cost of card transactions; this was also undertaken by TFL when London removed card charges.

METER RATE 2 – Evening 18:00 to 22:59 & weekends 0700 to 15:59 Flag Fall / Pull Off - Increase from £3.35 to £3.60

This is to cover the cost of card transactions; this was also undertaken by TFL when London removed card charges.

The 25p increase rather than a 30p increase because we want to remove the 5p from the fare totals. We feel we are being more than fair by cutting the 5p from our income in our desire to get rid of silly 5p increments. These coins are very small and fiddly, difficult to see at night and increase the size of the float we have to carry.

METER RATE 3 – Night Time (23:00 TO 06:59) Flag Fall / Pull Off - Increase from £4.00 to £4.50

This is to cover the cost of card transactions and to correct errors that have crept into the tariff chart over the years. This rate is supposed to be

"time and a half" and this adjustment would make it so. It also simplifies the scheme of fare to make it time and a  $\frac{1}{2}$ .

We would also request that this rate should include ALL BANK HOLIDAYS and EASTER SUNDAY.

The addition of bank holidays to this rate would allow for the removal of meter rate 4 completely, thus reducing the complexity of the chart for the public whilst rewarding drivers for working these antisocial hours. Generally the trade do not have enough drivers working on those shifts to

adequately cover the travelling public effectively. Increasing the fares for working antisocial hours should bring out more drivers and improve the service we can provide.

Customers are always surprised that the fares are not more on these days particularly Easter Sunday

#### METER RATE 4

To be removed completely The Council have been asking us for years to simplify the Fare Chart.

#### METER RATE 5

(To be changed to Meter Rate 4) Flag Fall / Pull Off - Increase from £4.40 to £6.00

(This is to cover the cost of card transactions and to correct errors that have crept into the tariff chart over the years. This rate is supposed to be "Double Fare" (Double Rate 1) and this adjustment would make it so and to simplify the fare chart making this actually double fare as it should be)

#### **BOXING DAY**

The enhanced rate currently ends at 22:59.

We ask that it continues to 06:59 on the 27<sup>th</sup> of December.

It is difficult enough to get drivers to work any 'holiday' let alone on Boxing Day. An increased rate would encourage drivers to work later and provide a better service to the travelling public (public transport, busses, etc. are very limited) and it would ensure drivers are being suitably recompensed. It seems an error that you would charge double fare all through Boxing Day but at 00:00 (as Boxing Day becomes the 27<sup>th</sup>) reduce the rate for the rest of the night/morning.

#### EXTRA CHARGES

£1.00 For each additional passenger in excess of 5

£1.00 Any Hiring Booked by Telephone, Radio, Internet, Email or App (Electronic Communications)

 $\pounds 1.00$  For any hiring if the journey starts or ends outside the borough of Rushmoor

To simplify the fare chart for members of the public (a council aim) we want to reduce the number of Extras. By creating one value for any Extras regardless of what they are for or when they are charged, you reduce the 6 varying extras to 3.

The daytime increase is reasonable when compared to surrounding areas and considering that we do not charge for luggage/bags or passengers above 1. It also gives a small increase to the income of the vast majority of drivers (remember the 30p on Flag Fall will not really be an increase because it will be swallowed up by card payment fees).

#### **DEBIT AND CREDIT CARD PAYMENTS**

ALL HACKNEY CARRIAGES MUST ACCEPT CREDIT OR DEBIT CARDS.

As TFL did in London, with a charge being added into the fare chart to cover credit card transacting and to ensure the public have the option to pay by card we feel that all Hackney Carriages MUST accept payment by credit card as part of their terms of licensing.

Some drivers pick and choose jobs on a rank and only take card payments when it is a high value fare sending the smaller fare to the next driver on the rank. Not only does this upset the taxi drivers but it is an inconvenience to the travelling public who are wandering up and down the rank to find someone willing to take them. This is an issue that has become more prevalent since the removal of card charges.

The remaining items on the fare chart would be unchanged.

Regards

Taxi Trade Board.

## CURRENT SCHEME OF FARES (EFFECTIVE FROM 1<sup>st</sup> AUGUST 2017)

Below is a table of fares made by Rushmoor Bor Provisions) Act 1976. Subject to the notes below, th	ough Co ese fare	ouncil under S65 of the Local Government (Miscell s and charges are the MAXIMUM fares that may be	aneous charged
METER RATE 1 - Day time		METER RATE 5 - Christmas/New Year	
Any hiring on a weekday between 07:00 and 17:59 (unless Rate 4 or 5 applies instead). First 1088 yards or uncompleted part For each subsequent (or part) 149.5 yards up to 8 miles Thereafter, for each subsequent (or part) 125.2 yards Waiting time (per 40 second period) METER RATE 2 - Evenings and weekends	£2.70 £0.20 £0.20 £0.20	Any hiring on Christmas Day (25 December) or Boxing Day (26 December); or Any hiring on Christmas Eve (24 December) or New Year's Eve (31 December) between 21:00 and 23 Any hiring on New Year's Day (1 January) between 00:00 and 06:59. First 1088 yards or uncompleted part For each subsequent (or part) 149.5 yards	£4.4 £0.4
Any hiring on any day between 18:00 and 22:59 (unless Rate 4 or 5 applies instead); or		Waiting time (per 40 second period) EXTRA CHARGES	£0.4
Any hiring on a Saturday or Sunday, between 07:00 and 17:59 ( <i>unless Rate 5 applies instead</i> ). First 1088 yards or uncompleted part For each subsequent ( <i>or part</i> ) 149.5 yards up to 8 miles Thereafter, for each subsequent ( <i>or part</i> ) 125.2 yards Waiting time ( <i>per 40 second period</i> )	£3.35 £0.20 £0.20 £0.20	For each additional passenger in excess of five pass At rate 1 or 2 (per person) At rate 3, 4 or 5 (per person) Any hiring booked by telephone or radio At rate 1 or 2 At rate 3, 4 or 5	engers £0.7 £1.0 £0.7 £0.7

Pull-off Fee	-	2.70	3.00		3.35	3.60		4.00	4.50	

Notes

All journeys shown above are for basic hire. Costs shown do not include any extras e.g. Waiting time, additional passengers or telephone bookings.
 All mileage taken from AA Route Planner.
 All figures subject to rounding.

4) Costs given are calculated for comparison purposes only. In practice, journeys marked '\*' are subject to supply and demand and separate quotes – typically lower than those given.

#### EXCERPT FROM THE COUNCIL'S TAXI LICENSING POLICY

(taken from Part H, Section 8, pages 77-78)

### **1.1. GENERAL ARRANGEMENTS**

1.2. Section 65 of the Local Government (Miscellaneous Provisions) Act 1976 (LGMPA76) provides that the licensing authority may set local hackney carriage fares for journeys within its area by means of a table or scheme of fares. There is no power to set private hire vehicle fares.

#### **1.3.** Frequency of review

1.4. To ensure currency, economic viability and incentive to provide taxi services, it is the policy of the licensing authority that the scheme of hackney carriage fares be subject to annual review in accordance with the timetable and methodology below.

#### 1.5. General methodology of review

- 1.6. To allow comparison, increase understanding and transparency of any review, the licensing authority will normally calculate and consider a notional uplift using an approved formula based on various indices and measures of inflation relevant to taxi trade.
- 1.7. Also, by way of facilitating consultation and local trade input, the licensing authority will normally invite the taxi trade to submit proposals for change to the current scheme of fares by the 1st May each year (timed to reflect the annual and comparative nature of the review process).
- 1.8. By way of facilitating comparison and to assist it in determination of any proposed review of the scheme of fares, the licensing authority will normally take the following and similar matters into consideration
  - (a) Any notional uplift figure calculated in accordance with any approved formula;
  - (b) A direct comparison table of extant and proposed changes to the pull off rate and/or running mile per unit distance travelled;
  - (c) The fare charts of neighbouring authorities;
  - (d) Any league table of national/regional taxi fares; and
  - (e) Practical comparable journey fares from both extant and proposed fare schemes.

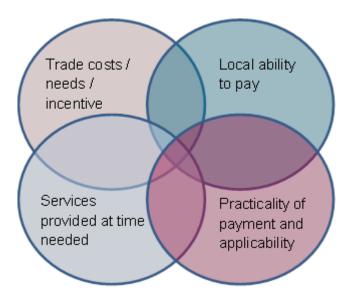

#### 1.9. Nature of review

1.10. Where appropriate, the licensing authority will normally review, in whole or part, the structure and/or any particular feature of the extant scheme of fares (e.g. unit costs, distances travelled, time periods, chronology, calendarisation and any additional extras etc).

#### 1.11. Relevant considerations

- 1.12. In reviewing the scheme of fares, the licensing authority will normally have regard to, but not be bound by the following considerations
  - (a) the needs of the travelling public;
  - (b) what may be reasonable to expect people to pay;
  - (c) the need to provide sufficient incentive to provide a taxi service when it is needed;
  - (d) the available supply of and demand for taxi services;
  - (e) any graduation of the above by time of day, day of the week, seasonal variation and/or on special occasions etc; and
  - (f) the practicality of proposed fare scheme arrangements.
- **NB:** These considerations should not be seen as a comprehensive checklist or, in any way, be regarded as standards to be automatically applied in all cases.

#### SUMMARY CONSIDERATIONS FOR SETTING OF TAXI FARES

#### WHAT MATTERS TO THE CUSTOMER / PUBLIC (in no particular order)

- Simple and easy to understand
- Fare is reasonable and affordable (£)
- Clear / Clarity of fares to be paid (in advance of journey)
- Ease of calculation (both in advance and during journey)
- Ease of calculation by taximeter
- Practicality of applicability
- Transparently and independently established
- Easy to enforce / police
- > Offers sufficient incentive for trade to provide taxi services when needed

#### WHAT MATTERS TO THE TAXI TRADE (in no particular order)

- Fare reasonably covers the costs of service and provides reasonable driver income (£)
- Fares commensurate with level of anti-social hours worked / risk (e.g. working at night / during night time economy) (i.e. incentive to provide a service when needed)
- Ease of calculation by taximeter
- Practicality of applicability
- Practicality of payment method

#### SOCIO-ECONOMIC DATA & RELEVANT INDICATORS

The following socio-economic data is provided to help contextualise both the current and proposed levels of taxi fares against local circumstances, local issues of relative depravation / affluence and the ability to pay for and use taxi services.

#### **Relative affluence of area**

#### Types of housing in Rushmoor

A higher percentage of housing in Rushmoor is at the lower end of the property market. In 2017, 86.5% of properties were in Band D or below. This is a much higher percentage than Rushmoor's geographic neighbours.

March 2017	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
Band A	3.7%	1.9%	1.8%	1.6%	1.8%
Band B	21.6%	5.9%	6.3%	5.9%	5.1%
Band C	39.4%	20.5%	18.5%	16.3%	23.0%
Band D	21.9%	27.6%	23.5%	26.7%	22.5%
Band E	9.7%	17.2%	17.6%	18.3%	20.0%
Band F	3.0%	11.2%	12.9%	15.85	17.3%
Band G	0.8%	12.7%	15.6%	14.0%	9.6%
Band H	0.1%	3.0%	3.9%	1.4%	0.6%
% band D or below	86.5%	55.9%	50.1%	50.6%	52.5%

(Source: Valuation Office Agency)

## Number of people on benefits /claimant count

Rushmoor has a higher percentage of residents claiming benefit principally for the reason of being unemployed and claiming main out-of-work benefits than residents in its geographical neighbours.

**Claimant Count -** Claimant Count is the number of people claiming benefit principally for the reason of being unemployed

March 2018	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
% of those ages 16 -64 in area	0.9%	0.6%	0.6%	0.7%	0.5%

(Source: NOMIS - Office for National Statistics)

## (Un)Employment rates

Rushmoor has the highest percentage of residents who are unemployed.

Jan 2017 – Dec 2017	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
Economically active (% of those ages 16 -64 in area)	84.9%	80.9%	81.6%	75.5%	90.0%
In employment (% of those ages 16 - 64 in area)	82.8%	79.2%	80.7%	75.5%	89.4%
Unemployed (% of those economically active)*	2.4%	2.2%	2.2%	2.2%	2.2%

\*Model based

(Source: NOMIS - Office for National Statistics)

## % population in relative deprivation

Rushmoor has higher deprivation score (as defined by the national Indices of Multiple Deprivation), and a higher percentage of children living in low income families than in the areas around Rushmoor. Also, Rushmoor has a much lower percentage of households not deprived in any dimension from the 2011 Census, compared to its geographical neighbours.

#### **Indices of Multiple Deprivation**

2015	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
Deprivation score (IMD 2015)	15.1	9.4	7.1	7.7	5.0

(Source: Public Health England - 2017 Area Health Profile)

#### Child poverty

2014	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
% children (under 16) in low income families	12.4%	9.9%	8.0%	8.7%	6.6%

(Source: Public Health England - 2017 Area Health Profile)

#### Deprivation dimensions data from the 2011 Census

The 2011 Census has calculated the number of households in a given area with selected household characteristics that are related to deprivation, these are called dimensions. The deprivation dimensions used by the Census are:

- **Employment** if any member of a household, not a full-time student, is either unemployed or long-term sick
- Education if no person in the household has at least level 2 education (5+GCSE or equivalent), and no person aged 16-18 is a full-time student

- Health and disability if any person in the household has general health categorised as 'bad or very bad' or has a long term health problem
- **Housing** if the household's accommodation is either overcrowded, with an occupancy rating -1 or less (this means one less room than needed based on a standard formula), or is in a shared dwelling, or has no central heating.

	Rushmoor %	Guildford %	Waverley %	Surrey Heath %	Hart %
Household is not deprived in any dimension	47.5	54.9	56.6	56.2	58.7
Household is deprived in 1 dimension	32.7	30.0	29.2	29.8	29.0
Household is deprived in 2 dimensions	15.5	12.4	11.8	11.8	10.7
Household is deprived in 3 dimensions	3.9	2.5	2.1	2.0	1.5
Household is deprived in 4 dimensions	0.4	0.2	0.2	0.2	0.1

(Source: Office for National Statistics)

## Income / disposable income levels

Rushmoor residents earn over £150 less a week than residents in its geographical neighbours. Those who work in Rushmoor also earn less than if they worked in Guildford, Waverley and Hart.

## Gross weekly pay of those who live in Rushmoor and those who work in Rushmoor

2017 all full time workers	Rushmoor	Guildford	Waverley	Surrey Heath	Hart	National Living Wage (over 25)	South East	Great Britain
Earnings by residence	£551.4	£708.9	£747.5	£707.2	£712.3	£289.7	£596.8	£552.7
Earnings by workplace	£638.1	£654.5	£583.7	£569.5	£651.9	£289.7	£574.9	£552.3

(Source: NOMIS - Office for National Statistics)

#### Average annual income levels

2017 all full time workers	Rushmoor	Guildford	Waverley	Surrey Heath	Hart	National Living Wage (over 25)	South East	Great Britain
Earnings by residence	£28,673	£36,863	£38,870	£36,774	£37,040	£15,064	£31,034	£28,740

(Source: NOMIS - Office for National Statistics)

## Mode of travel choice

In 2011, Rushmoor residents mainly travelled to work by car or van (47.6%). In total 166 people (0.2%) travelled to work by taxi, this was the highest number and percentage of the population aged 16-74, compared to Rushmoor's geographical neighbours.

% of population aged 16-74	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
Work mainly at or from home	2.8%	5.3%	7.0%	5.5%	6.0%
Underground, metro, light rail, tram	0.1%	0.2%	0.2%	0.2%	0.1%
Train	5.0%	7.8%	7.8%	4.4%	5.2%
Bus, minibus or coach	3.0%	2.3%	1.2%	1.4%	0.9%
Taxi (people)	0.2%	0.1%	0.1%	0.1%	0.1%
	(166)	(152)	(88)	(71)	(84)
Motorcycle, scooter or moped	0.6%	0.5%	0.5%	0.5%	0.5%
Driving a car or van	47.6%	39.3%	41.8%	50.1%	50.2%
Passenger in a car or van	3.9%	2.5%	2.6%	2.7%	2.4%
Bicycle	2.1%	1.8%	1.1%	1.3%	1.5%
On foot	7.4%	8.2%	6.4%	5.2%	5.4%
Other method of travel to work	0.6%	0.4%	0.5%	0.6%	0.4%
Not in employment	26.7%	31.4%	30.9%	28.1%	27.3%

#### Method of Travel to Work - Resident Population, 2011

(Source: Office for National Statistics)

## % car ownership

In 2011, Rushmoor residents had the lowest level of car ownership, compared to our geographical neighbours

#### 2011 Car ownership

% of households	Rushmoor	Guildford	Waverley	Surrey Heath	Hart
No car or van	16.6%	13.9%	11.9%	10.0%	8.0%
1 car or van	43.0%	40.0%	38.1%	34.5%	34.7%
2 cars or vans	31.2%	33.9%	36.3%	39.9%	42.1%
3 cars or vans	6.8%	8.6%	9.7%	11.0%	10.7%
4 or more cars or vans	2.4%	3.6%	4.0%	4.6%	4.5%

(Source: Office for National Statistics)

## Net inward / outward migration

The following table demonstrates that in 2011 more people commuted out of Rushmoor than commuted into Rushmoor. More Rushmoor residents commuted into Surrey Heath than to anywhere else.

	Where people LIVING IN Rushmoor go to work	Where people WORKING IN Rushmoor live
Rushmoor	16,367 people living and	working in the Borough
	4,565 hom	e workers
	4,131 workers with	no fixed workplace
Hart	3,238	4,675
Surrey Health	4,693	2,806
Guildford	3,579	2,656
Waverley	2,703	2,174
Bracknell Forest	1,158	1,072
Woking	1,013	625
Basingstoke & Deane	931	1,213
East Hampshire	636	1,236
	Total commuting OUT of Rushmoor – 26,208	Total commuting INTO Rushmoor – 25,058

#### EXCERPT FROM DFT TAXI AND PRIVATE HIRE VEHICLE LICENSING BEST PRACTICE GUIDANCE TO LICENSING AUTHORITIES (March 2010)

#### **TAXI FARES**

52. Local licensing authorities have the power to set taxi fares for journeys within their area, and most do so. (There is no power to set PHV fares.) Fare scales should be designed with a view to practicality. The Department sees it as good practice to review the fare scales at regular intervals, including any graduation of the fare scale by time of day or day of the week. Authorities may wish to consider adopting a simple formula for deciding on fare revisions as this will increase understanding and improve the transparency of the process. The Department also suggests that in reviewing fares authorities should pay particular regard to the needs of the travelling public, with reference both to what it is reasonable to expect people to pay but also to the need to give taxi drivers sufficient incentive to provide a service when it is needed. There may well be a case for higher fares at times of higher demand.

53. Taxi fares are a maximum, and in principle are open to downward negotiation between passenger and driver. It is not good practice to encourage such negotiations at ranks, or for on-street hailings; there would be risks of confusion and security problems. But local licensing authorities can usefully make it clear that published fares are a maximum, especially in the context of telephone bookings, where the customer benefits from competition. There is more likely to be a choice of taxi operators for telephone bookings, and there is scope for differentiation of services to the customer's advantage (for example, lower fares off-peak or for pensioners).

54. There is a case for allowing any taxi operators who wish to do so to make it clear – perhaps by advertising on the vehicle – that they charge less than the maximum fare; publicity such as '5% below the metered fare' might be an example.
