Application No	20/00165/LBCPP	Ward: Knellwood
Applicant:	Mr Sam Bower	
Decision:	<b>Application Withdrawn</b>	Decision Date: 10th March 2020
Proposal:	<p>This application refers to the caretakers store room to the North East of the site, behind the main school building and two storey 1960s classroom extension. The store has a shallow pitched, tiled roof of timber structure. It is estimated that this roof was replaced in the early 1900s. The roof has been in a state of disrepair for some time causing water ingress that has rot damaged many of the timber rafters and wall plate. The roof tiles, soffit boards and ridges are all highly dilapidated. There is also a small section of flat roof that forms a link to the main school hall extension. The proposals include to reroof the store building with like-for-like tiles, ridges and soffits where needed. Internally, it is the aim of the project to keep all existing timbers if possible. Where the timbers are deemed structurally dangerous it is proposed that new support rafters can be fixed to maintain the aesthetic and heritage of the building whilst allowing the roof to be safe and watertight for the future use. It is proposed that the small section of flat roof is to be replaced as the existing covering is past its lifespan. This replacement will have no significant aesthetic difference from the existing - which is the aim/ethos of the proposals in general. at <b>St Peters Church Of England Junior School Church Avenue Farnborough Hampshire</b></p>
