Development Management Committee 23rd October 2024

Planning (Development Management) summary report for the quarter July - September 2024

1. Introduction

1.1 The purpose of this report is to update Members on the position with respect to Performance Indicators for the Development Management Section of Planning, and the overall workload of the Section. This report covers the quarter from 1st July to 30th September 2024.

2. Planning Applications

- 2.1 The three tables and corresponding graphs below set out figures relating to determination of Major, Minor and 'Other' planning applications and appeal decisions for the first quarter of the financial year.
- 2.2 We are required to provide the government with statistical returns in relation to decision times for different types of applications and the number of appeals allowed. National Government sets these targets at a national level, and there are potential consequences for not meeting such requirements. Officers can agree Extension of Times (EXOT) with agents to extend the timescale beyond the nationally set target deadlines, and these are recorded as 'in time' in the statutory returns.
 - Major and Small Scale Major applications
- 2.3 In Quarter 2 major planning applications were determined 'in time'. One was determined within the statutory 13 week deadline and one (22/00340/REMPP Blandford House) was not determined within statutory timescales. This in part due to the applicant not agreeing to a PPA, and appealing on the ground of 'non determination'.

1 (April – June 24)	2	100%	60%	75%

2.6 It should be noted that the returns required by government do not include some application types including applications for the approval of details pursuant to conditions, applications to fell or carry out works to TPO trees and trees in Conservation Areas, Non-Material Amendments, Screening Opinions, Adjacent Authority Consultations and applications for approval in relation to conditions. These however constitute a significant source of demand on our service. These are included in the total figures reflecting workload set out below.

- Appeals allowed

2.7 The following table sets out figures relating to appeals allowed against the authority's decision to refuse permission.

Quarter	Government Target	Appeals Allowed	% allowed	Appeal Decisions

3.2 This quarter saw a fall in numbers of application submissions and determinations. This is in line with other Local Planning Authorities, and is a largely a result of economic challenges and uncertainty around planning policy changes.
